Foreword

The United Nations General Assembly, in its Resolution 70/1 Transforming our world: The 2030 Agenda for Sustainable Development (September 2015), established that the 17 goals and 169 targets of the Agenda should be followed-up using a set of global indicators.

Subsequently, in its Resolution A/RES/71/313, the General Assembly adopted the global indicator framework to follow-up the 2030 Agenda and stressed that official statistics and data from national statistical systems constitute the basis needed for the global indicator framework, recommended that national statistical systems explore ways to integrate new data sources into their systems to satisfy new data needs of the 2030 Agenda for Sustainable Development and also stressed the role of national statistical offices as the coordinators of the national statistical system.

The global indicator framework consists of 231 indicators distributed across the different goals and targets. This set is very heterogeneous as it contains indicators relating to economic, social, environmental and institutional areas.

This publication on the Indicators of the 2030 Agenda for Sustainable Development in Spain presents the situation regarding the achievement of goals and targets, as well as the evolution of indicators since 2015, as this was the year in which the 2030 Agenda was adopted.

Information is provided, through tables and charts, for 148 indicators and 374 sub-indicators along with certain breakdowns. Considering additionally the five indicators that are not applicable to our country, a coverage rate of 60% on the total indicators of the Sustainable Development Goals (SDG) of the global framework has been reached.

INE is the coordinator of the National Statistical System and of the Indicators of the 2030 Agenda for Sustainable Development. This statistical operation of the National Statistical Plan, responsibility of INE, is carried out in collaboration with the statistical services of the ministries, which are responsible for the production of numerous indicators. For their dissemination, INE launched in December 2018 a national reporting platform for the SDG available at: <https://www.ine.es/dyngs/ODS/es/index.htm>

I would like to thank the collaboration of all the people and agencies who have contributed to the development and updating of the national reporting platform and to the preparation of this report on the 2030 Agenda Indicators in Spain.

Statistical monitoring system of the 2030 Agenda in Spain

The National Statistics Institute (INE) and the National Statistical System are committed to the production of the highest quality indicators that ensure an appropriate monitoring of the goals and targets of the 2030 Agenda.

The INE has attached the utmost importance to this project and, therefore, since 2015 it participates as an observer country in the Inter-Agency and Expert Group on Sustainable Development Goals Indicators (IAEG-SDGs), responsible for developing and implementing the global indicator framework. In 2016, it established an internal working group in the INE on the 2030 Agenda indicators, to coordinate the different projects within the Institute. In addition, from the beginning, it has actively participated in various international forums and meetings, such as those organized by Eurostat and UNECE. For example, it is collaborating on the drafting of the second edition of the "Road Map on Statistics for SDGs", which will be presented for approval at the 69th plenary session of the Conference of European Statisticians in June this year.

Moreover, through the 2018 Annual Programme, a statistical operation called "Indicators of the 2030 Agenda for Sustainable Development" was incorporated into the National Statistical Plan, which aims to establish a framework of statistical indicators to monitor the Goals and Targets of the 2030 Agenda. This operation is coordinated by the Office of the President of the National Statistics Institute, in cooperation with the ministerial departments responsible for the production of the various indicators. The operation was submitted for opinion to the High Council on Statistics, an advisory body of the State statistical services where trade union and business organisations and other social, economic and academic groups and institutions are represented, which agreed to unanimously give a favourable opinion.

In its role as coordinator of the National Statistical System and also of the 2030 Agenda Indicators, it has reported and discussed all the developments of indicators in the collegiate bodies of coordination: the Interministerial Statistics Commission (CIME), for achieving horizontal coordination among the State statistical services, and the Interterritorial Statistics Committee, to enable coordination and to enhance cooperation between the State and Autonomous Communities' statistical services. In October 2018, the CITE Plenary Session approved the establishment of a 2030 Agenda indicators working group, with the aim of exchanging methodological experiences. As an example of the activity with the ministerial departments, the CIME members were convened in March for an informative session on SDG Indicators, to discuss among other topics the statistical work related to the United Nations Voluntary National Review.

The INE, together with the national statistical system, is collaborating in public initiatives that require the use of SDG indicators. These include those aimed at developing the 2030 Sustainable Development Strategy, which will integrate an indicators framework to enable the monitoring and evaluation of the progress achieved, as well as to strengthen the accountability. In this context, the INE has already cooperated in the preparation of the Statistical Annex for the July 2018 Voluntary National Review, where Spain reported 125 indicators.

The current 2021 Voluntary National Review also includes a statistical annex, which presents a numerical image of Spain based on the criteria used for the 2030 Agenda SDG. This annex takes as its starting point the electronic platform of indicators launched by the INE in 2018, which was renewed on February 5th offering new visualization tools that include maps and charts. The platform includes 374 sub-indicators corresponding to 148 SDG indicators, and it continues to expand. In addition to the INE, 16 ministerial departments and the Bank of Spain participate in its development. This publication that constitutes the statistical annex has been prepared with the information available on the national reporting platform of the SDGs on March 5th 2021.

The INE plans to continue collecting, updating and publishing data on SDG indicators. In particular, it intends to further complement the existing data by exploring new data sources. It also aims to enhance every day the existing indicators in a process of continuous improvement, in aspects such as a greater breakdown of the data, to fulfil the objective of "no one is left behind". The 2030 Agenda indicators are considered a challenge to be faced in the coming years, but also a strategic opportunity to strengthen and improve the Spanish statistical system.

Goal 1. End poverty in all its forms everywhere

Target 1.1

By 2030, eradicate extreme poverty for all people everywhere.

Extreme poverty is currently measured as people living on less than USD \$1.25 a day.

INDICATOR 1.1.1

Proportion of the population living below the international poverty line by sex, age, employment status and geographic location (urban/rural).

Exploring data sources.

Target 1.2

By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions.

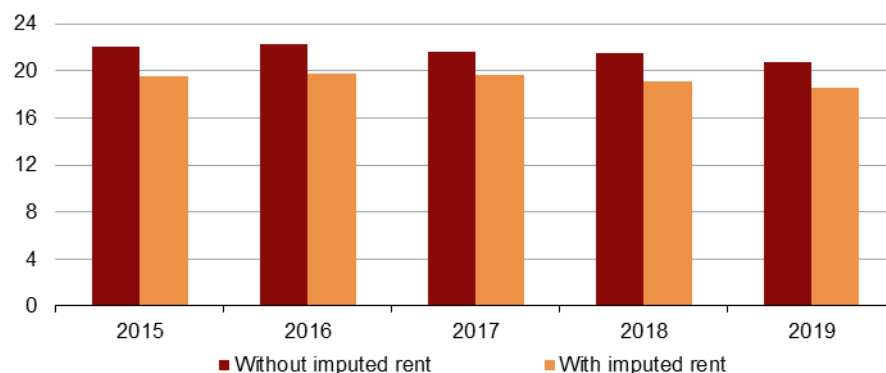

INDICATOR 1.2.1

Proportion of population living below the national poverty line, by sex and age.
Percentage

Sub-indicator	Name	2015	2016	2017	2018	2019
1.2.1.1	Population at risk of relative poverty (income < 60% of median)	22.10	22.30	21.60	21.50	20.70
1.2.1.2	Population at risk of relative poverty (income < 60% of median value) with imputed rent	19.50	19.80	19.70	19.10	18.60

INDICATOR 1.2.2

Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions. *Percentage*

Sub-indicator	Name	2015	2016	2017	2018	2019
1.2.2.1	Population at risk of poverty or social exclusion: AROPE indicator	28.60	27.90	26.60	26.10	25.30
1.2.2.2	Population with severe material deprivation	6.40	5.80	5.10	5.40	4.70
1.2.2.3	Population living in households with low work intensity	15.40	14.90	12.80	10.70	10.80

Source: National Statistics Institute.

Population at risk of poverty or social exclusion (AROPE rate). 2019. *Percentage*

Target 1.3

Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable.

INDICATOR 1.3.1

Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable.

Exploring data sources.

Target 1.4

By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including micro-finance.

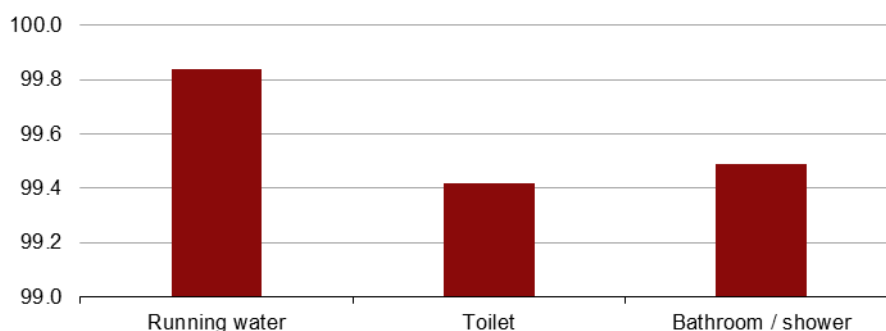

INDICATOR 1.4.1

Proportion of population living in households with access to basic services. 2011. *Percentage*

Sub-indicator	Name	2011
1.4.1.1	Proportion of household with access to running water	99.84
1.4.1.2	Proportion of household that have a toilet	99.42
1.4.1.3	Proportion of household that have a bathroom/shower	99.49

Proportion of household with access to basic services. 2011.
Percentage

INDICATOR 1.4.2

Proportion of total adult population with secure tenure rights to land:

- a) with legally recognized documentation, and
- b) who perceive their rights to land as secure, by sex and type of tenure.

Exploring data sources.

Target 1.5

By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters.

INDICATOR 1.5.1

Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population. *Per 100.000 population*

Sub-indicator	Name	2015	2016	2017	2018
1.5.1.1	Number of dead people directly attributed to disasters per 100,000 population	0.17	0.12	0.12	0.22

INDICATOR 1.5.2

Direct economic loss attributed to disasters in relation to global gross domestic product (GDP). *Euros*

Sub-indicator	Name	2015	2019
1.5.2.1	Global data of insured damages in goods and damages in people (direct damage) caused by extraordinary risks (flood, earthquakes, strong wind, terrorism, etc)	193,994,024	732,628,046

Source: Ministry of Economic Affairs and Digital Transformation.

INDICATOR 1.5.3

Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030.

Exploring data sources.

INDICATOR 1.5.4

Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies.

Exploring data sources.

Target 1.a

Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions.

INDICATOR 1.A.1

Total official development assistance grants from all donors that focus on poverty reduction as a share of the recipient country's gross national income. *Million euros*

INDICATOR 1.A.2

Proportion of total government spending on essential services (education, health and social protection). *Percentage*

Sub-indicator	Name	2015	2016	2017	2018	2019
1.a.2.1	Proportion of total government spending on Education	9.39	9.59	9.70	9.52	9.52
1.a.2.2	Proportion of total government spending on Health	14.06	14.33	14.48	14.38	14.48
1.a.2.3	Proportion of total government spending on Social protection	39.13	40.03	40.47	40.53	41.33

Source: Ministry of Finance.

Proportion of total government spending on essential services (education, health and social protection). Percentage

Target 1.b

Create sound policy frameworks at the national, regional and international levels, based on pro-poor and gender-sensitive development strategies, to support accelerated investment in poverty eradication actions.

INDICATOR 1.B.1

Pro-poor public social spending.

Exploring data sources.

Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Target 2.1

By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round.

INDICATOR 2.1.1

Prevalence of undernourishment.

Exploring data sources.

INDICATOR 2.1.2

Prevalence of moderate or severe food insecurity in the population, based on the Food Insecurity Experience Scale (FIES).

Exploring data sources.

Target 2.2

By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons.

INDICATOR 2.2.1

Prevalence of stunting (height for age <-2 standard deviation from the median of the World Health Organization (WHO) Child Growth Standards) among children under 5 years of age.

Exploring data sources.

INDICATOR 2.2.2

Prevalence of malnutrition (weight for height $>+2$ or <-2 standard deviation from the median of the WHO Child Growth Standards) among children under 5 years of age, by type (wasting and overweight). *Percentage*

Sub-indicator	Name	2011	2017
2.2.2.1	Proportion of children aged 2 to 4 years with obesity, overweight or underweight	55.96	54.97

Source: Ministry of Health.

Proportion of children aged 2 to 4 years with obesity, overweight or underweight.
Percentage

INDICATOR 2.2.3

Prevalence of anaemia in women aged 15 to 49 years, by pregnancy status (percentage).

Exploring data sources.

Target 2.3

By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment.

INDICATOR 2.3.1

Volume of production per labour unit by classes of farming/pastoral/forestry enterprise size. *PPP constant \$ (Base 2015)*

Sub-indicator	Name	2015	2016	2017	2018
2.3.1.1	Production of small-scale producers per labour unit	38,563.13	40,096.93	42,150.62	42,780.49

INDICATOR 2.3.2

Average income of small-scale food producers, by sex and indigenous status.
PPP constant \$ (Base 2015)

Sub-indicator	Name	2015	2016	2017	2018
2.3.2.1	Average income of small-scale food producers	19,689	18,928	20,430	21,248

Source: Ministry of Agriculture, Fisheries and Food.

Target 2.4

By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality.

INDICATOR 2.4.1

Proportion of agricultural area under productive and sustainable agriculture.
Percentage

Sub-indicator	Name	2009	2018	2019
2.4.1.1	Proportion of agricultural surface area where ecological agriculture is carried out	6.33	8.88	9.66

Source: Ministry of Agriculture, Fisheries and Food.

Proportion of agricultural surface area where ecological agriculture is carried out. Percentage

Target 2.5

By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly

managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed.

INDICATOR 2.5.1

Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities.

Exploring data sources.

INDICATOR 2.5.2

Proportion of local breeds classified as being at risk of extinction.

Exploring data sources.

Target 2.a

Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries.

INDICATOR 2.A.1

The agriculture orientation index for government expenditures.

Exploring data sources.

INDICATOR 2.A.2

Total official flows (official development assistance plus other official flows) to the agriculture sector. *Euros*

Sub-indicator	Name	2016	2017
2.a.2.1	Total gross official flows (ODA plus other official flows) to the agriculture sector	60,629,559	61,990,310
2.a.2.2	Total net official flows (ODA plus other official flows) to the agriculture sector	41,221,683	58,900,994

Source: Ministry of Foreign Affairs, European Union and Cooperation.

Total official flows (ODA plus other official flows) to the agriculture sector.
Million euro

Target 2.b

Correct and prevent trade restrictions and distortions in world agricultural markets, including through the parallel elimination of all forms of agricultural export subsidies and all export measures with equivalent effect, in accordance with the mandate of the Doha Development Round.

INDICATOR 2.B.1

Agricultural export subsidies.

Exploring data sources.

Target 2.c

Adopt measures to ensure the proper functioning of food commodity markets and their derivatives and facilitate timely access to market information, including on food reserves, in order to help limit extreme food price volatility.

INDICATOR 2.C.1

Indicator of food price anomalies.

Exploring data sources.

Goal 3. Ensure healthy lives and promote well-being for all at all ages

Target 3.1

By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births.

INDICATOR 3.1.1

Maternal mortality ratio. *Maternal deaths per 100,000 live births*

3.1.2.1	Proportion of births attended by skilled health personnel	99.92	99.92	99.92

Source: National Statistics Institute.

Target 3.2

By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.

INDICATOR 3.2.1

Under-5 mortality rate. *Deaths per 1,000 live births*

Sub-indicator	Name	2015	2016	2017	2018	2019

Deaths per 1,000 live births

Target 3.3

By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.

INDICATOR 3.3.1

Number of new HIV infections per 1,000 uninfected population, by sex, age and key populations.

Sub-indicator	Name	2018	2019
3.3.1.1	Number of new HIV infections per 1,000 uninfected population	0.07	0.06
3.3.1.2	Number of new HIV infections per 1,000 uninfected population, male	0.12	0.10

Source: Ministry of Science and Innovation.

INDICATOR 3.3.5

Number of people requiring interventions against neglected tropical diseases.

Exploring data sources.

Target 3.4

By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.

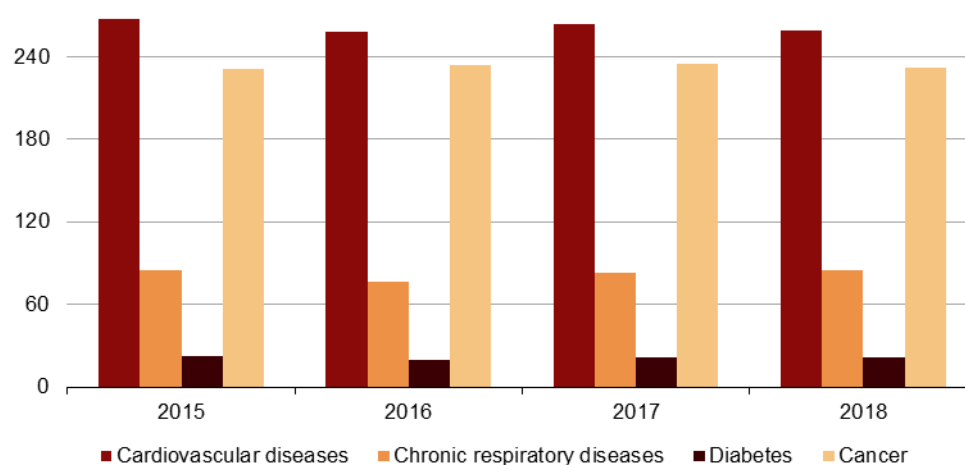

INDICATOR 3.4.1

Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease. *Per 100,000 population*

Sub-indicator	Name	2015	2016	2017	2018
3.4.1.1	Mortality rate attributed to cardiovascular diseases	267.61	257.87	263.18	258.64
3.4.1.2	Mortality rate attributed to chronic respiratory diseases	85.22	76.81	82.81	84.99

3.4.2.1	Mortality rate due to suicide	7.76	7.68	7.91	7.57

Source: National Statistics Institute.

Target 3.5

Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.

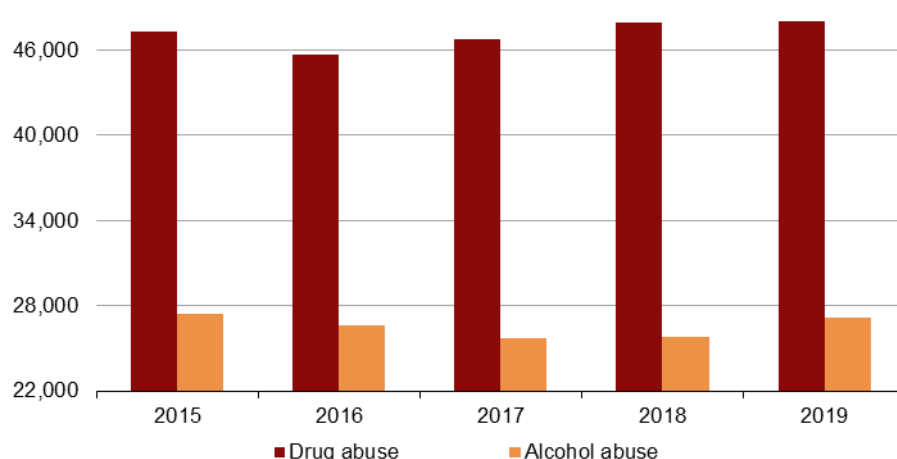

INDICATOR 3.5.1

Coverage of treatment interventions (pharmacological, psychosocial and rehabilitation and aftercare services) for substance use disorders. *Number of admissions*

Sub-indicator	Name	2015	2016	2017	2018	2019
3.5.1.1	Drug abuse treatment admissions	47,308	45,637	46,799	47,972	49,886

Target 3.7

By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes.

INDICATOR 3.7.1

Proportion of women of reproductive age (aged 15–49 years) who have their need for family planning satisfied with modern methods. *Percentage*

Sub-indicator	Name	2018
3.7.1.1	Proportion of women of reproductive age (aged 15-49 years) married to men or have male partners, who have their need for family planning satisfied with modern methods	75.10

Source: National Statistics Institute.

INDICATOR 3.7.2

Adolescent birth rate (aged 10–14 years; aged 15–19 years) per 1,000 women in that age group. *Births per 1,000 women.*

Sub-indicator	Name	2015	2016	2017	2018	2019
3.7.2.1	Adolescent fertility rate (between 10 and 14 years old) per 1,000 women in that age group	0.09	0.10	0.10	0.06	0.07
3.7.2.2	Adolescent fertility rate (between 15 and 19 years old) per 1,000 women in that age group	7.72	7.34	7.04	6.23	5.96

Source: National Statistics Institute.

Target 6.5

By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate.

INDICATOR 6.5.1

Degree of integrated water resources management.

Exploring data sources.

INDICATOR 6.5.2

Proportion of transboundary basin area with an operational arrangement for water cooperation.

Exploring data sources.

Target 6.6

By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes.

INDICATOR 6.6.1

Change in the extent of water-related ecosystems over time.

Exploring data sources.

Target 6.a

By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies.

² This indicator has been removed from the global list after the 2020 Review. No suitable replacement indicator was proposed. The global statistical community is encouraged to work to develop an indicator that could be proposed for the 2025 comprehensive review. See E/CN.3/2020/2, paragraph 23

Goal 12. Ensure sustainable consumption and production patterns

Target 12.1

Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries.

INDICATOR 12.1.1

Number of countries developing, adopting or implementing policy instruments aimed at supporting the shift to sustainable consumption and production.

Exploring data sources.

Target 12.2

By 2030, achieve the sustainable management and efficient use of natural resources.

INDICATOR 12.2.1

Target 12.3

By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses.

INDICATOR 12.3.1

- a) Food loss index.
- b) Food waste index.

Exploring data sources.

Target 12.4

By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment.

INDICATOR 12.4.1

Number of parties to international multilateral environmental agreements on hazardous waste, and other chemicals that meet their commitments and obligations in transmitting information as required by each relevant agreement. *Kilograms per inhabitant per year*

Target 12.7

Promote public procurement practices that are sustainable, in accordance with national policies and priorities.

INDICATOR 12.7.1

Degree of sustainable public procurement policies and action plan implementation.

Exploring data sources.

Target 12.8

By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature.

INDICATOR 12.8.1

Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment.

Exploring data sources.

Target 12.a

Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production.

INDICATOR 12.A.1

Installed renewable energy-generating capacity in developing countries (in watts per capita). *Euros*

Sub-indicator	Name	2016	2017

Target 12.b

Develop and implement tools to monitor sustainable development impacts for sustainable tourism that creates jobs and promotes local culture and products.

INDICATOR 12.B.1

Implementation of standard accounting tools to monitor the economic and environmental aspects of tourism sustainability.

Exploring data sources.

Target 12.c

Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities.

INDICATOR 12.C.1

Amount of fossil-fuel subsidies (production and consumption) per unit of GDP.

Exploring data sources.

Goal 13. Take urgent action to combat climate change and its impacts

Target 13.1

Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries.

INDICATOR 13.1.1

Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population.

Sub-indicator	Name	2015	2016	2017	2018

Target 13.3

Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning.

INDICATOR 13.3.1

Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment.

Exploring data sources.

Target 13.a

Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible.

INDICATOR 13.A.1

Amounts provided and mobilized in United States dollars per year in relation to the continued existing collective mobilization goal of the \$100 billion commitment through to 2025.

Exploring data sources.

Target 13.b

Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities.

INDICATOR 13.B.1

Number of least developed countries and small island developing States with nationally determined contributions, long-term strategies, national adaptation plans and adaptation communications, as reported to the secretariat of the United Nations Framework Convention on Climate Change.

Exploring data sources.

Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development

Target 14.1

By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution.

INDICATOR 14.1.1

- a) Index of coastal eutrophication;
- b) plastic debris density

Exploring data sources.

Target 14.2

By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans.

INDICATOR 14.2.1

Number of countries using ecosystem-based approaches to managing marine areas.

Exploring data sources.

Target 14.3

Minimize and address the impacts of ocean acidification, including through enhanced scientific cooperation at all levels.

INDICATOR 14.3.1

Average marine acidity (pH) measured at agreed suite of representative sampling stations.

Exploring data sources.

Target 14.4

By 2020, effectively regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-

based management plans, in order to restore fish stocks in the shortest time feasible, at least to levels that can produce maximum sustainable yield as determined by their biological characteristics.

INDICATOR 14.4.1

Proportion of fish stocks within biologically sustainable levels. *Tonnes*

Sub-indicator	Name	2015	2016	2017	2018
14.4.1.1	Total fish catches expressed in tonnes of live weight	971,489	904,032	940,633	917,012

Total fish catches. *Tonnes*

Target 14.5

By 2020, conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information.

INDICATOR 14.5.1

Coverage of protected areas in relation to marine areas. *km²*

Sub-indicator	Name	2016	2017	2018	2019
14.5.1.1	Marine protected area	84.40	85.31	128.86	131.23

Marine protected area. *km²*

Target 14.6

By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation.

INDICATOR 14.6.1

Degree of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing.

Exploring data sources.

Target 14.7

By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism.

INDICATOR 14.7.1

Sustainable fisheries as a proportion of GDP in small island developing States, least developed countries and all countries.

Exploring data sources.

Target 14.a

Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of Marine Technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries.

INDICATOR 14.A.1

Proportion of total research budget allocated to research in the field of marine technology.

Exploring data sources.

Target 14.b

Provide access for small-scale artisanal fishers to marine resources and markets.

INDICATOR 14.B.1

Degree of application of a legal/regulatory/ policy/institutional framework which recognizes and protects access rights for small-scale fisheries.

Exploring data sources.

Target 14.c

Enhance the conservation and sustainable use of oceans and their resources by implementing international law as reflected in the United Nations Convention on the Law of the Sea, which provides the legal framework for the conservation and sustainable use of oceans and their resources, as recalled in paragraph 158 of “The future we want”.

INDICATOR 14.C.1

Number of countries making progress in ratifying, accepting and implementing through legal, policy and institutional frameworks, ocean-related instruments that implement international law, as reflected in the United Nations Convention on the Law of the Sea, for the conservation and sustainable use of the oceans and their resources.

Exploring data sources.

Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

Target 15.1

By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements.

INDICATOR 15.1.1

Forest area as a proportion of total land area. *Percentage*

Sub-indicator	Name	2015	2016	2017	2018

15.1.2.1	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, on farmland	16.69
15.1.2.2	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, in forests	47.65
15.1.2.3	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, in pastures	30.91
15.1.2.4	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, in other types of lands	2.00
15.1.2.5	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, in settlements	0.62
15.1.2.6	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, in wetlands	2.13

Source: Ministry for the Ecological Transition and the Demographic challenge.

Target 15.2

By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally.

INDICATOR 15.2.1

Progress towards sustainable forest management.

Sub-indicator	Name	2015	2016	2017	2018
15.2.1.1	Forest area with a sustainable forest management planning instrument in force, in hectares	4,611,684	4,804,162	-	5,167,697

Target 15.4

By 2030, ensure the conservation of mountain ecosystems, including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development.

INDICATOR 15.4.1

Coverage by protected areas of important sites for mountain biodiversity. *Percentage*

Sub-indicator	Name	2017
15.4.1.1	Places important for mountain biodiversity that are covered by protected areas, farmland	6.12
15.4.1.2	Places important for mountain biodiversity that are covered by protected areas, in forests	55.10

Target 15.6

Promote fair and equitable sharing of the benefits arising from the utilization of genetic resources and promote appropriate access to such resources, as internationally agreed.

INDICATOR 15.6.1

Number of countries that have adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits.

Exploring data sources.

Target 15.7

Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products.

INDICATOR 15.7.1

Proportion of traded wildlife that was poached or illicitly trafficked.

Exploring data sources.

Target 15.8

By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species.

INDICATOR 15.8.1

Proportion of countries adopting relevant national legislation and adequately resourcing the prevention or control of invasive alien species.

Sub-indicator	Name	2019
15.8.1.1	Spain has relevant national legislation and has ensured adequate resources for the prevention or control of invasive alien species	YES

Source: Ministry for the Ecological Transition and the Demographic challenge.

Target 15.9

By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts.

INDICATOR 15.9.1

a) Number of countries that have established national targets in accordance with or similar to Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011–2020 in their national biodiversity strategy and action plans and the progress reported towards these targets; and b) integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting.

Sub-indicator	Name	2015	2019
15.9.1.1	Spain has established national targets in accordance with Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011–2020 or similar targets in its national biodiversity strategies and action plans and has reported on progress towards achieving these goals	NO	YES
15.9.1.2	Spain has incorporated biodiversity values into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting (SEEA)	NO	NO

Target 15.b

Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation.

INDICATOR 15.B.1

a) Official development assistance on conservation and sustainable use of biodiversity; and b) revenue generated and finance mobilized from biodiversity-relevant economic instruments. *Euros*

See indicator 15.a.1.

Target 15.c

Enhance global support for efforts to combat poaching and trafficking of protected species, including by increasing the capacity of local communities to pursue sustainable livelihood opportunities.

INDICATOR 15.C.1

Proportion of traded wildlife that was poached or illicitly trafficked. *Percentage*

INDICATOR 16.3.3

Proportion of the population who have experienced a dispute in the past two years and who accessed a formal or informal dispute resolution mechanism, by type of mechanism.

Exploring data sources.

Target 16.4

By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime.

INDICATOR 16.4.1

Total value of inward and outward illicit financial flows (in current United States dollars).

Exploring data sources.

INDICATOR 16.4.2

Proportion of seized, found or surrendered arms whose illicit origin or context has been traced or established by a competent authority in line with international instruments.

Exploring data sources.

Target 16.5

Substantially reduce corruption and bribery in all their forms.

INDICATOR 16.5.1

Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months. *Percentage*
